GETTING STARTED ON YOUR FAMILY TREE

At Ancestral Connections, it is part of our mission to help people build connections with their ancestors. For this reason, we offer this starter kit free for everyone. Feel free to download more kits, charts, and records as you continue to research your genealogy.

As you fill out these records, you will see your position amidst a great heritage and most definitely begin to feel a burning desire to learn more about your ancestors. After digging in old boxes for information and asking relatives what they know, you will eventually come to a point where some spots are left empty. Sometimes, despite a relative's best efforts to find information, the line seems to have hit a "brick wall" and you can't seem to fill in that missing information.

In summary, here are some important points to remember,

- Identify where you fit in the family
- Show where your ancestors lived, if they migrated, and to where and when they migrated
- Show where the "brick walls" are on your ancestral lines
- Inspire a desire to break through the "brick walls"
- Give the "big picture" about your family history
- If all you have is one name and date, then that is enough to get started

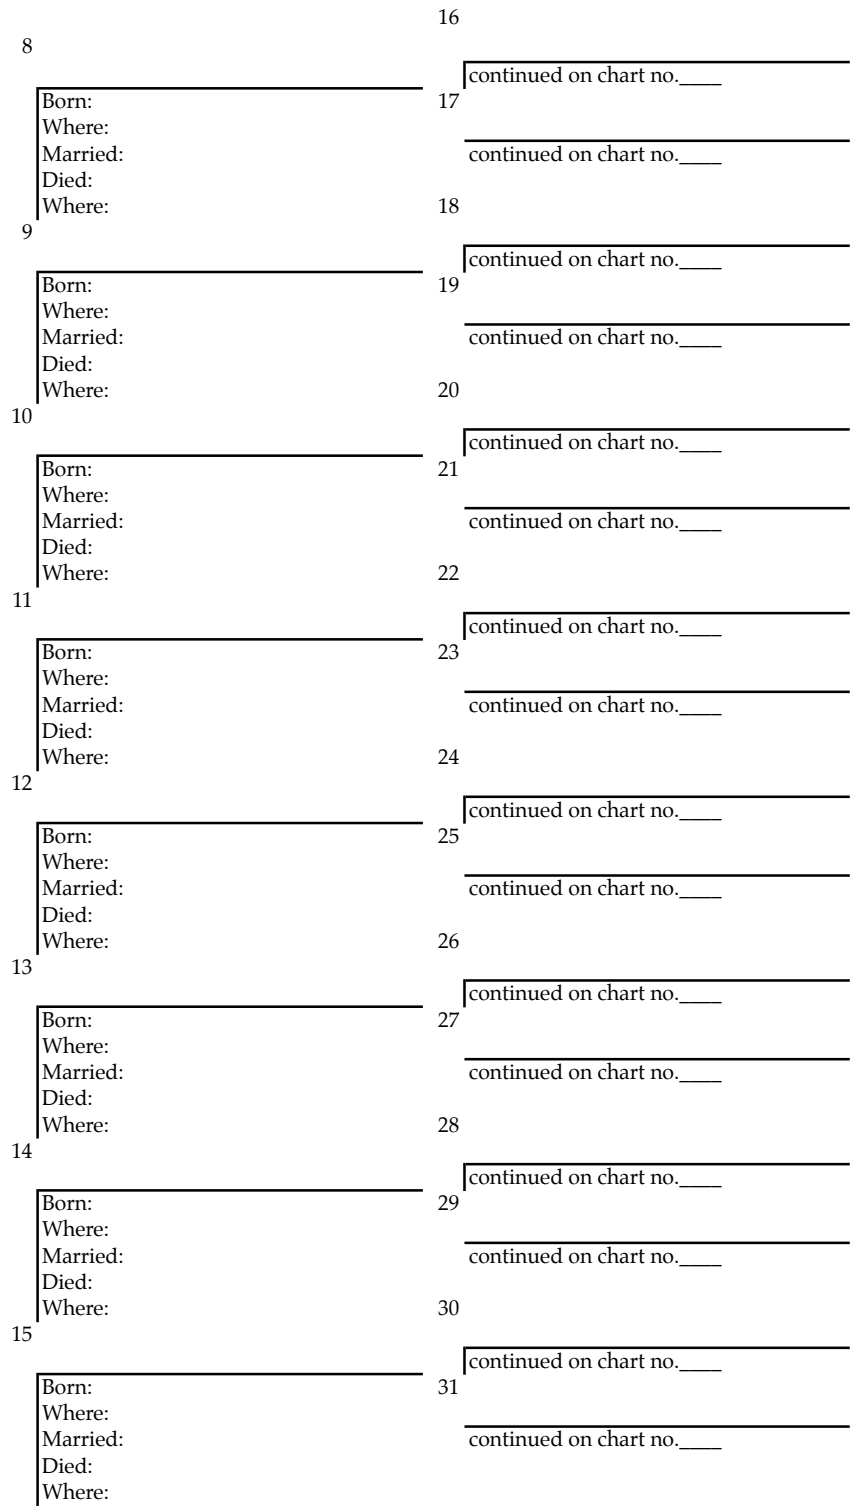

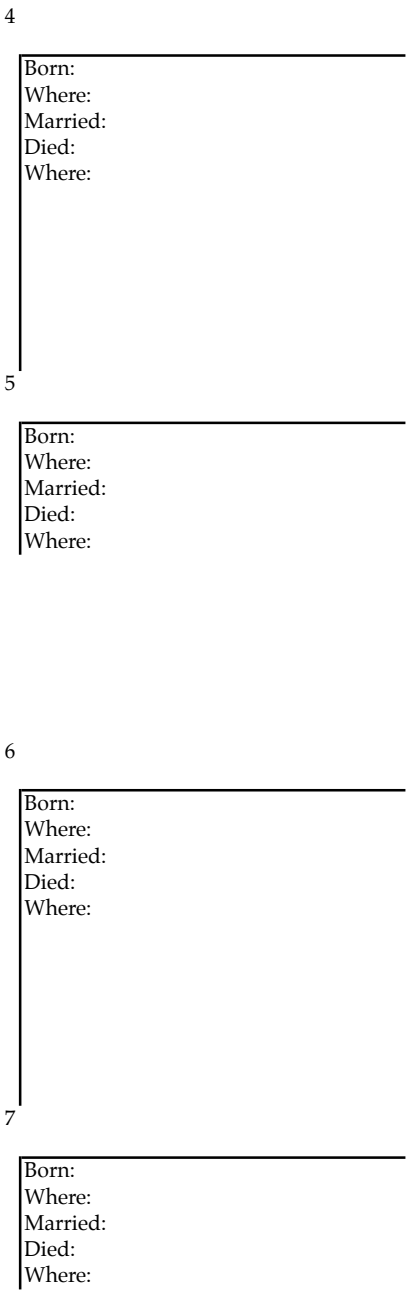

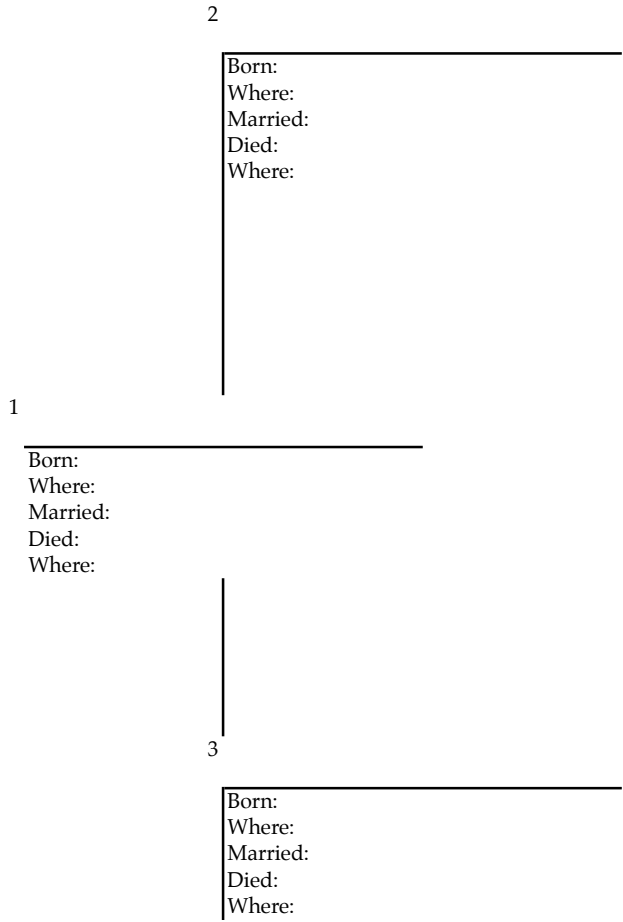

When you get to that point, and need additional assistance to complete your records, it is our hope that you will choose to hire us. We specialize in ancestral research that has gone cold and hit a brick wall. Russell Bangerter, owner and principal researcher of Ancestral Connections, is educated and experienced to take your research further than you ever expected. You can rest easy knowing a qualified researcher is enlisting his tools and established network to find your ancestors and help you build a connection with them.
